OBJECTIVE

A Computer Science major with a minor in Data Science at Constructor University. I am eager to apply theoretical and practical knowledge in a real-world setting. With hands-on experience in advanced image processing and segmentation, coupled with analytical skills fostered by a strong data science background, I aim to contribute to innovative software solutions.

EDUCATION

Constructor University

Bachelor of Science in Computer Science, Minor in Data Science

Bremen, Germany

Sep. 2022 – Sep. 2025 (Exp.)

LANGUAGES

Spanish (Native), English (C2), German (B2)

EXPERIENCE

OPTICut Data Science Internship

De Montfort University

June-August 2024

Leicester, United Kingdom

- Learned advanced image processing using python libraries like pytorch and cv2
- Applied Machine learning and neural networks for image segmentation with Meta's segmentation model
- Created modular python library optimized for server-side use

Technical Lead and Website Designer for Virtual Events

Golden Valley School

2019-2022

Heredia, Costa Rica

- Practiced website design and development with Wordpress and Elementor.
- Implementation of virtualization for school events during pandemic.
- Developing a customer service chatbot using Java.
- Implementation of a community feedback system using comment boxes.

XXXII Costa Rican Math Olympics, Level III

OLCOMA

2020

Costa Rica

- Finalist at 2020's national Math Olympics
- Gained experience with mathematical fields of algebra, trigonometry, calculus.

PROJECTS

OPTICut | *Python, Image Processing, Machine Learning*

June 2024 – August 2024

- Utilized neural networks for image segmentation
- Processed generated data to produce additional metrics
- Implemented GPU acceleration for neural networks using CUDA cores
- Separated tasks into client and server side for efficient server deployment

AdminShop | *Java, Maven, Git*

June 2022 – Present

- Forked, expanded, and maintained a Minecraft server utilities mod with over 70k downloads
- Implemented economy-like system with multi-account control
- Handles custom networking packets

SimpleReactions | *Discord API, Java, Gradle*

2021

- Developed a Discord chatbot which automatically processes user accounts
- Interactive way to grant user-specific permissions
- Asynchronous event-driven programming
- Helped to virtualize school-wide events during the pandemic

SKILLS

Operating Systems: Windows, Linux (Ubuntu, RHEL)

Languages: Java, Python, C/C++, SQL (MySQL), JavaScript, MATLAB, HTML/CSS, LaTeX

Frameworks: React, Flask

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, PyCharm, IntelliJ, MariaDB, Maven, Gradle

Libraries: pandas, NumPy, Matplotlib, Scikit-learn, cv2, pytorch

Soft Skills: Time Management, Communication, Collaboration, Adaptability
